

Join the J.R. Clancy Quality Team

We're looking for theatre and stage rigging professionals to fill the career positions listed below. We offer competitive salaries and a comprehensive benefits package. If you have job experience in the design and implementation of theatrical rigging systems and rigging equipment in entertainment and educational stage applications, this could be the career opportunity you've been seeking.

INTERNATIONAL SALESPERSON

J.R. Clancy, the leading North American theatre rigging designer and manufacturer, has an excellent career opportunity for an International salesperson. Founded in 1885, we're still growing with new, innovative products like the PowerLift and SceneControl Automated Rigging System.

The salesperson will respond to requests for information and quotes, be involved in estimating, prepare proposals, and travel internationally (typically 6-8 times per year). The person will work with existing dealers and be responsible for developing new accounts.

Ideal candidates for the position will have 2-5 year sales experience, a good working knowledge of theatrical rigging systems and the ability to clearly explain their use, benefits, and suitability. International travel experience, as well as an understanding of different cultures and business approaches, is helpful. Clear written communication skills are essential.

Please send your résumé to tomyoung@jrclancy.com where it will be kept completely confidential.

J.R. Clancy is an equal opportunity employer that offers a very competitive salary and a very comprehensive benefits package including health, dental, life, and disability insurances; paid vacation and holiday; 401(k) plan with company match; flex spending; and educational reimbursement.

Some travel required, and sometimes on short notice.

Send resume to: mikemurphy@jrclancy.com

MECHANICAL ENGINEER

J. R. Clancy has an immediate employment opportunity for a Mechanical Engineer to prepare submittal drawings for rigging systems going into theaters and other structures. Duties include review of construction plans and specs, creation of layouts (plan and elevation views) and detail drawings, performing calculations, designing or specifying structural, rigging, and hardware items, performing drawing review of own and other engineers/drafters work.

Ideal candidates for this position will have a Mechanical or Structural Engineering degree with two or more years of structural and/or machine design. Experience in 2-D CAD is required, with AutoCad Inventor background preferred. Knowledge of material properties, welding callouts, and common load calculations are desired. Theater design or Technical Direction background is a major plus. The position may include occasional field checks and support on project job sites, and will involve manufacturing shop support as required. Opportunities exist to support new product development in addition to other duties.

J.R. Clancy has been designing and manufacturing theatrical rigging systems in Syracuse, New York since 1885. Our quality management system is ISO 9001:2000 Certified.

Please send all inquiries and resumes to mikemurphy@jrclancy.com, where they will be kept completely confidential. We're an equal opportunity employer offering competitive wages and

comprehensive benefits including health, dental, life, and disability insurances, paid vacation and holidays, 401(k) retirement, flex spending, and educational reimbursement.
